

Pavement Marking Technician Training

January 25-26, 2005 (#682)

Shoreline Conference Center, Ronald Room
18560 First Avenue N.E., Shoreline, WA 98155
(206) 368-4776

(The phone number shown above is to be used in case of emergency to contact a student in the class.)

Cost: \$450

Hours: 8:00 am to 5:00 pm

Class Size: 30

Instructor: American Traffic Safety Services Association (ATSSA)

Target Audience: Technical and professional engineers, and maintenance technicians who are directly involved in the selection, design, installation, and inspection of pavement markings.

Course Description: This is a WSDOT training class that is available for local agency attendance.

This two-day course will greatly increase the knowledge and skills of agency personnel who are responsible for the selection, design, installation, and inspection of pavement markings. Comprehensive instruction in the methods of applying traffic control design, specifically for pavement marking installation, and the procedures to follow that provide for a safe and efficient application process are reviewed. The materials covered include pavement marking standards and principles as contained in the Manual on Uniform Traffic Control Devices (MUTCD); EPA, DOT and OSHA regulations; personal and traffic control safety; installation and quality control of a variety of the most common pavement marking materials as well as discussion of more recently developed materials.

Tort liability and various legal issues are discussed and will provide the student with a working knowledge of the procedures in documenting and complying with environmental and hazardous materials regulations. In addition, industry ethics and professionalism are reviewed and discussed in scenarios representing field situations and conditions.

Upon completion of this course, and satisfactory completion of a written examination, participants are mailed a certificate of completion.

Objectives: This course was developed to provide:

- A broad knowledge of pavement marking techniques and safety requirements to the pavement marking industry.
- Increase the knowledge and sharpen the skills of personnel who select, design, install and inspect pavement markings.

Questions? Contact Laurel Gray at (360) 705-7355 or GrayL@wsdot.wa.gov.

WSDOT Employees: If you want to attend this class, you must register in ATMS (CPP, #1101) or contact Staff Development. Their number is (360) 705- 7062.

Registration: You can register on-line using this link: [On-line Registration Form](#). Fill in your information*, select your class from the list, then press "Submit." You will receive an e-mail notification with driving directions to the training site when we process your request. **If you do not receive this e-mail notification within a day, you may not be registered and should contact the WST2 Center by phone.**

Please do not prepay, an invoice will be mailed to you after the class. Confirmation letters are mailed three weeks prior to the class. If you are unable to attend, someone else from your agency may attend in your place. To cancel your registration, or for assistance with registration, e-mail wst2center@wsdot.wa.gov or schmidw@wsdot.wa.gov or phone (360) 705-7386.

* A "unique identifier" is now required when registering on-line. You might use the four digits of your phone number, your birthstone, birth date, child's name, or pet name, but please make it something you will remember. Our computer matches your last name with this identifier to automatically and quickly register you into a class.
